FLIGHT 800808I AIRCRAFT 43RF "OPERATOR", E. ZIPPER SHEET 1 OF
(AS IT WERE)

TAPE #	TIME ON	TIME OFF	SOURCE RADARS			REWOUND?		COMMENTS
			NO	TA	LF	YES	NO	
1	195400	2009				✓		Just entering pass outside 1st band Should have entire pass on 020° Track
2.	205925	210125	Nothing significant ahead. Tape was going like mad.					Started in midst of rainband on 310° Track, 70nm out.
	211048	211404				✓		Just entering 1st band. Track 268.
3	2119 (approx)	2126 (approx)	May not be too useful if rest of data system is messed up but it is on the 290° outbound Track.					Just after big jolt entering NW wall
4	215815	220132						On edge of 1st band, heading for west part of eye wall, Trk 110°
	220455	220522						(In SW wall)
5	223010	223320 (approx)						Northband then sky-looking SW wall
	223545	223646						then mid-looking NW wall Tape ends.
