File = FERRY.DAT file on 00:06:30

Disk crashed. file is no good.

DAT images at ~ 0029:00, for a few seconds.
file off at 0034:00 (more or less). I'll write
tomorrow's data on the same tape.

some more images a few minutes later.

0053:50 both 2D probes look terrible.

005630 landed. quit!
