

020923n - Isidore - 002 mission

White/Goldenberg

27 sonde (only) - (total failures)

called NHC ~ 740 pm

SATCOM worked for most of flight

Mainly saw storm clouds in G of 17K.

020924n - Isidore - 002 mission

White/Goldenberg

26 sonde - Tabloff 1530Z

called NHC ~ 1600 - 0136Z

SATCOM worked for just 1st 2

Rest by Isidore

Mike Black thought he had fixed SYNMAP part of editsonde but it was not successful.

26 sondes - no failures

used sup fix.exe to

fix time problem

on sonde # 26

020923 -

020925n - LILI (042 mission)
White/Goldenberg

Center RT -

7's for 5m

→ How to do sonde conversion

→ Need to trip 9/26 mark

21 planned drops -

~~5~~ 5 backups used

Added 3 sondes near

"Center" of LILI -

fixed problem with synmap
with the EDITSONDE by

changing geography option
(on synmap - CH1, 2) to (N).
Geography file is converted

Tabloff 1728 MacDill
Land - 0117 ST Cruise

Did 3 sondes near "Center" -

showed center ~ 13N, 70W
