

Aviation Safety Course

Total points 10/10 ?

Instructions:

This document is not anonymous, your training will be recorded under your email address.

Use this form to record any NOAA Aviation Safety Training required to comply with NAO 209-124 and AOC SMS Training.

Please complete the quiz. A minimum score of 80% is required to pass the training. If your score is less than 80%, please re-take the course & quiz until your score is 8/10 or better. If you have questions, please contact aviation.safety@noaa.gov

After you complete the quiz, return to the CLC Website, mark the training complete, acknowledge the course completion, and then you'll be able to get a printable certificate from CLC. Regardless, your score is on file with the Aviation Safety Program Manager and available upon request
