Hi Shaun,

Do you know who these guys are:

<http://www.hsrrcl.com/current-events/press-releases/drifters-press-release/>

This company, Haida Salmon Restoration Company, is claiming that they're in a partnership with us. This has just become a big deal: they've dumped over 100 tones of iron sulphate as part of an apparently illegal fertilization experiment:

I need to know as quickly as possible what, if any, connection we have with this company.

Regards,
Rick
