1999 1119I.DROPS

Neal,
 Although you may have not received any of the flight data or reports from the two Lenny recon missions of N43RF, AOC has provided us with summary files of GPS drops deployed during the ~~991116I~~ 991116I + 991119I missions. These were included on the Lenny CDROM sonde archive mailed to us by Jeff Smith. I'm providing these to you for archiving (they are in lieu of the yellow dropsonde log sheets).
 Steve
