Bruce- Rick Lumpkin from AOML is ready to provide responsive documents  
for this FOIA. We can provide them in PDF format. What is the final  
date for you to receive them and how do you want them sent? Can they be  
sent as one PDF or do all of the 40 plus documents have to be separated  
which is very time consuming.

Thanks

Hi Bruce,

AOML will have responsive records for this request. Dr. Rick Lumpkin is currently putting together his information as requested. Our plan is to provide the material to you by the due date as requested below.

Regards,  
Alan

The request follows:

To Whom It May Concern:

This is a request under the Freedom of Information Act. I hereby request the following records:

Any documents concerning an incident from July involving 100 tons of iron sulphate being dumped into the Pacific by businessman Russ George.

I also request that, if appropriate, fees be waived as I believe this request is in the public interest. The requested documents will be made available to the general public free of charge as part of the public information service at MuckRock.com, processed by a representative of the news media/press and is made in the process of news gathering and not for commercial usage.

In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely, Tom Nash

Please review the FOIA request and respond to me on whether \*OR NOT\* you have such records by November 28, 2012.

Given the due date (November 28, 2012) of this FOIA and for those with responsive records, I am requesting any responsive documents by COB December 4, 2012. Please provide one set of electronic documents if there are NO redactions, or two sets of photo copies (retain your original) of all documents that may be responsive to the request \*AND\* have redactions. This would include, in addition to final documents, drafts, notes, informal records, and electronic records. You must search every place that could reasonably be expected to have responsive documents. One set of copies (not original documents) should be provided without annotation.

On the second set, please identify whether you believe the documents, or any portion of the documents, should be withheld from disclosure because it is not an agency record, outside the scope of the request, privileged, confidential, an invasion of personal privacy, or for any other legitimate reason recognized by FOIA. You must include the FOIA exemption next to any information you identify as protected from disclosure. The office that originated a document must make disclosure determinations for that document. Please make sure that you identify any documents or portions of documents that originated with another office, agency or bureau that need to be referred for disclosure determinations.

Please contact me if you have any questions.
