Hi Shaun,

Please let me know if you've had any conversations or e-mail exchanges  
with John Disney of Haida Corporation.

Regards,  
Rick

I just heard most of the interview -- got a call -- but I was also asked  
if any NOAA people spoke to John Disney.  
Please let me know  
cheers  
jana

Thanks, Richard.

In this interview, Disney states that marine science institutions, including "NOAA in the United States" (among others that he names) are "extremely excited" about the release and "they've been waiting for a very long time for somebody to do this on a slightly larger scale than has ever been done." If he's referring to Haida's interactions with the Global Drifter Program, this is wildly inaccurate.

Best,  
Rick

Allison and Richard,

More information ... in the first link, in the second segment at 2:08 (see the segment listings in the right column), John Disney repeats the statements about talking to NOAA scientists who are "extremely excited" about someone doing this on a larger scale. He refers to free equipment and free advice.

Just more (public) information here.

Steve

FYI:

I heard the following 9 minute interview with John Disney,  
president of the Haida Salmon Restoration Corporation and  
economic development office for the Old Massett Village Council,  
about the OF project on the radio last night.

<http://www.cbc.ca/asithappens/add-category/2012/10/16/as-it-happens---the-tuesday-edition/>

On Monday, it was also a topic of discussion on the same show:
