Hi Rick,  
Will you please review the drafted email below.  
I'm not sure what you and Richard have discussed thus far, so I don't =  
want to speak out of turn.=20

Please let me know what changes you'd like made.=20  
-Shaun

Hello Richard,  
Because the Global Drifter Program is closely linked with meteorological  
=  
agencies around the world, these partnerships entail open dialog and =  
regular communication about what deployment opportunities (i.e., ships)  
=  
are available. It is true that we're constantly looking to fill data =  
gaps and replenish areas of need, but these needs are regularly met =  
through ties with communities such as the Ship of Opportunity Program =  
(SOOP), Volunteer Observing Ship Program (VOS), Port Meteorological =  
Officers (PMO's), etc. Through these groups, the Global Drifter Program  
=  
and it's affiliates target container ships and university-owned research  
=  
vessels to conduct drifter deployments. Of course, these opportunities =  
are in addition to the primary contributions from each agency-affiliated  
=

vessel(s).=20

I hope this information is helpful. Should you require additional =  
information, or further clarification, please let me know.

Thank you,  
Shaun=20

wrote:

> Hi Shaun -- I've been communicating with Rick about our responses on =  
the ocean dumping incident. One thing that might help us is that other  
=  
nations also deploy drifters using private vessels or that they =  
cooperate with us in some other way to get the devices to where they are  
=  
needed. Can you give me any information on that? Thanks.
