Hi Rick,

At this point, all we really need to do by November 28th is indicate that we have responsive documents and begin preparing those documents (per the last paragraph of Bruce's email). Cathy can assist you in this when she returns from leave but suffice it to say that OAR HQ will need electronic copies (as PDF) of all documents in their original form. If there are things that should be redacted (e.f. PII, financially sensitive information, contractual details, etc.), then a second set of documents (which can also be electronic) with those sections redacted, needs to also be provided. For ease, I recommend not redacting any information at all if possible.

Alan
