Hi Rick,

At this point, all we really need to do by November 28th is indicate that we have responsive documents and begin preparing those documents (per the last paragraph of Bruce's email). Cathy can assist you in this when she returns from leave but suffice it to say that OAR HQ will need electronic copies (as PDF) of all documents in their original form. If there are things that should be redacted (e.f. PII, financially sensitive information, contractual details, etc.), then a second set of documents (which can also be electronic) with those sections redacted, needs to also be provided. For ease, I recommend not redacting any information at all if possible.

Alan

Hi Alan,

I have retained copies of all e-mails related to the drifter
deployments conducted by Haida Corp. Please let me know how to
proceed.

Best regards,
Rick

Gustavo, Rick,

Please see this request and me me know if you have a response or
any responsive documents.

Thanks,
Alan

Subject: *FOIA Request DOC-NOAA-2013-000101
<tel:2013-000101> - Iron Sulphate Dumped into the Pacific*

The request follows:

To Whom It May Concern:

This is a request under the Freedom of Information Act. I hereby request the following records:

Any documents concerning an incident from July involving 100 tons of iron sulphate being dumped into the Pacific by businessman Russ George.

I also request that, if appropriate, fees be waived as I believe this request is in the public interest. The requested documents will be made available to the general

public free of charge as part of the public information service at MuckRock.com <<http://MuckRock.com>>, processed by a representative of the news media/press and is made in the process of news gathering and not for commercial usage.

In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely, Tom Nash

Filed via MuckRock.com <<http://MuckRock.com>>

Please review the FOIA request and respond to me on whether *OR NOT* you have such records by November 28, 2012.

Given the due date (November 28, 2012) of this FOIA and for those with responsive records, I am requesting any responsive documents by COB December 4, 2012. Please provide one set of electronic documents if there are NO redactions, or two sets of photo copies (retain your original) of all documents that may be responsive to the request *AND* have redactions. This would include, in addition to final documents, drafts, notes, informal records, and electronic records. You must search every place that could reasonably be expected to have responsive documents. One set of copies (not original documents) should be provided without annotation.

On the second set, please identify whether you believe the documents, or any portion of the documents, should be withheld from disclosure because it is not an agency record, outside the scope of the request, privileged, confidential, an invasion of personal privacy, or for any other legitimate reason recognized by FOIA. You must include the FOIA exemption next to any information you identify as protected from disclosure. The office that originated a document must make disclosure determinations for that document. Please make sure that you identify any documents or portions of documents that originated with another office, agency or bureau that need to be referred for disclosure determinations.

Please contact me if you have any questions.
