Hi Jana,

I can confirm that I didn't speak with him at any point.

Shaun Dolk, who manages the logistics of the drifter array, is attending a class right now (he's working on his Masters degree). I do not yet know if he ever spoke with or exchanged e-mails with John Disney, but Shaun has stated that noone from Haida ever told him about their bioengineering plans. I'll find out if he had any exchanges with Disney and will let you know.

Regards,  
Rick
