Jana, unfortunately there has been no indication as to when it will be released. We are closing up the meeting soon, and I will ask the IMO secretariat if they have any indication as to when it may occur. Suspect it would be sometime today.

A

Colleagues,

The London Convention/London Protocol Parties have agreed to a statement of concern over the OF activity that occurred off the coast of Canada. NOAA/the USG broadly is not specifically mentioned of course, but we are a Convention Party so will be associated with it. It will be released to the media, from the International Maritime Organization in London today.

I have attached the media release version.

Best,

Allison and Richard
