Hi all,

I had a request for the trajectories of the Haida drifters deployed from the Ocean Pearl in the North Atlantic. Here's what we have in the deploy:

We have four of them listed as deployed at about 51S, and the rest at 51-53N. I imagine that "S" is an unfortunate typographical error. Please also check the "E" on those - all the rest are at almost the same lon, but W.
