

SEAS-XBT-TSG AOML Meeting on Coordination of Operations. March 8 and 9, 2011

Action Items

- (JF) will maintain the XBT / FR system in the Navigator, as a backup.
- (PR) Mark Paes (from NDBC) to be contacted about using Iridium instead of T&T and have NWS pay for XBT transmissions using Iridium as a way to save them money.
- (DD, RR) Can help with the recruitment of a cruise ship to do the AX07 transect once or twice a year.
- (CM) will send us all the data from AX02 (Reykjafoss, Skogafoss...)
- (GG) Help with Hector Casanova so that we can finish the installation of the new XBT container and to repair the smaller container.
- (DA) Include in the cruise plans a Cruise Report Template with the information that must be contained in the Cruise Report.
- (UR, IG) Test if it is possible to create an account on the pc running AMVERSEAS without administrative privileges.
- (Rigoberto Garcia) will start sending FB the XBT profiles from baby max for insertion into the GTS
- (UR) Organize a meeting with one of the riders from SA, JF and other riders at AOML to create or improve a troubleshooting guide to avoid problems and bad profiles during HD cruises
- (IG) Include in SEAS profiles the information about transect number, as well as a sequential number for profiles obtained for each SEAS system
- (JT, PC) JT needs access to all the data we receive from the ships and from the raw data PC receives in Silver Spring. PC will make that data available.
